

FOR IMMEDIATE RELEASE

STATEMENT OF CLARIFICATION ON #PROUDTOESWL 2021

22 July 2021 — It has come to our attention that allegations have been made about our annual #ProudtoESWL contest and our winning story of the year, submitted by Dr Katsuro Tomiyasu.

Integrity is a cornerstone of our Dornier values and we take such allegations very seriously. Over the past few weeks, we have convened an independent panel of urology experts (“The Panel”) to review the winning entry for #ProudtoESWL 2021. The Panel has determined that the winning story is valid, and that it demonstrated a successful outcome for a paediatric patient with ultrasound guided ESWL.

#ProudtoESWL 2021 has been an overwhelming success, and we would like to congratulate all winners of this year’s contest. Thank you to all who have participated and voted, for your support and trust.
